DETAILED ACTION

Drawings

Because there is only a single figure, the figure must be referred to merely as "the figure" and not "figure 1".

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Arney (3757748).

Arney shows in figures 1 and 2 opposed cylinders 13a, 13b, gas compression means near 49, supply passage means at 187, transfer passage means at 149, cam means 41, 43, exhaust passage 35, , and valve means 189.

Allowable Subject Matter

Claims 2-5, 7, 8, and 10-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
